Ref.: NOA/M&R/26-27/007 **Date: 23.09.2026**

To
The Director (Production),
NALCO,
Bhubaneswar.

Sub: Request for inclusion of QC Facilitators and Coordinators in the upcoming CCQC Competition.

Respected Sir,

It is a matter of pride for all NALCONIANS that NALCO is an ISO-certified company and has obtained certifications under ISO 9001, ISO 14001, ISO 45001, ISO 50001 and SA 8000. These certifications reflect NALCO's commitment to quality, environmental sustainability, occupational health and safety, energy management and social accountability. They also contribute significantly to enhancing the Company's credibility and market value, particularly in B2B business.

Among these certifications, ISO 9001 has particular significance as it emphasizes a systematic approach towards quality management and continual improvement in the Company's operations and maintenance activities. In this regard, Quality Circle (QC) teams play an important role in identifying operational challenges, developing innovative solutions and contributing towards improvement in the operational and financial efficiency of the plant.

It has, however, come to our notice through a recent circular that **QC Facilitators and QC Coordinators would not be permitted to participate in the forthcoming CCQC competition to be held at Bhubaneswar,** while other members of the QC teams have been permitted to participate.

This decision has raised a genuine concern among the members of the QC fraternity regarding the role and contribution of Facilitators and Coordinators in the successful execution of QC projects. A QC project is essentially a collective effort of the entire team, wherein every member contributes towards achieving the identified objectives and milestones.

The Facilitator plays a vital role in guiding and motivating the QC team throughout its journey. The Facilitator supports the team in identifying problems, applying QC tools and techniques, preparing the project, coordinating various activities and ensuring that the team remains focused on achieving its objectives. In many cases, the Facilitator acts as the driving force behind the team and provides the necessary guidance and encouragement required for successful

completion and presentation of the project.

Similarly, the QC coordinator plays an important role in facilitating the functioning of QC teams across the organization. The coordinator keeps the teams informed about developments in the QC movement, provides necessary guidance and facilitates participation in various QC forums and competitions.

Therefore, excluding the Facilitator and Coordinator from the CCQC competition may not fully reflect the collective nature of the QC movement and the contributions made by all those involved in developing and implementing the project.

In view of the above, it is humbly requested that the recent circular may kindly be reviewed and reconsidered, and **the QC Facilitators and QC Coordinators are also be permitted to participate in the forthcoming CCQC competition, along with the other members of the respective QC teams.**

We sincerely hope that the matter will receive your kind consideration and appropriate action.

Regards,

Ranajit Nayak
General Secretary,
Nalco Officers' Association,
M&R Complex, Damanjodi.
