To,
The Director (HR),
NALCO, Corporate Office,
BHUBANESWAR

Sub: Representation regarding Misuse, Poor Management and sub-standard maintenance of Guest House Facilities.

Respected Sir,

NALCO Officers' Association (NOA) wishes to place on record its serious concern regarding the prevailing system of Guest House (GH) booking, allotment and maintenance.

It has been consistently observed that Guest House accommodation is often unavailable to employees when genuinely required. The primary purpose of maintaining Guest House facilities is to support employees and officials during official visits and other legitimate requirements. However, the present situation clearly indicates that this objective is not being fulfilled in letter and spirit.

Further, it has come to the notice of the Association that on several occasions, Guest House accommodation is being extended to outsiders or for purposes not directly related to employees. Such practices severely restrict availability for employees and defeat the very purpose and moral responsibility of maintaining these facilities.

In addition, the condition of the Guest House at Vizag is a matter of serious concern. The maintenance standards are highly inadequate, and the facilities are not in a condition fit for accommodation. There have been disturbing reports of unhygienic conditions, including infestation of bed bugs in beds and rooms, causing extreme discomfort to employees staying there.

Such conditions are completely unacceptable and reflect poorly on the standards expected from a reputed **Navaratna Company** like **NALCO**. Instead of providing comfort and dignity to employees visiting on official duty, the present state of the Guest House is causing hardship and dissatisfaction.

The top management is urged to treat this issue with utmost seriousness and ensure immediate corrective measures for proper hygiene, maintenance, and monitoring of all Guest House facilities.

NOA strongly feels that both the management system and maintenance standards require immediate and comprehensive review at the highest level.

NALCO OFFICERS' ASSOCIATION

The Association further suggests that an immediate service contract may be placed upon a professional agency for deep cleaning, insect de-infection, sanitation and regular up-keep of all Guest House facilities. Simultaneously, necessary interior repair along with replacement of damaged beds, furniture and bath fittings should be undertaken on priority basis to restore minimum acceptable living standards for employees.

A clear, transparent, and strictly monitored booking policy must be implemented to ensure:

- Priority allotment for employees;
- Avoid repeated bookings through the same ID; and
- Payment for room booking should be made mandatory at the time of booking.

Further, a clear and transparent guideline should be framed for handling medical and emergency referral cases, wherein immediate and priority on-the-spot booking facility may be provided to employees and their dependents visiting referral hospitals.

We urge the top management to take this matter with the seriousness and initiate timely corrective measures to restore the intended purpose and standards of the Guest House facilities.

In the absence of concrete action, NOA will be constrained to take up the matter before appropriate forums, as continued neglect of such fundamental employee facilities cannot be accepted under any circumstances.

Thanking you and expecting immediate corrective action.

Yours sincerely,

(Ranajit Nayak)
General Secretary
Nalco Officers' Association
